Introducing Everest, the new patented cylinder family from Schlage. Whether you need convenient key duplication or restricted key control, Everest has a product to address your security issues. What sets Everest apart from the rest? Everest is a patent protected keying system that provides you as much key control as you need.

Everest™ key control for your existing Best® 7 pin interchangeable core systems. All the benefits of easy rekeying, with Schlage Everest key control.

Direct replacement for original Schlage cylinders in all locksets

For those not wanting to change their keying systems, you can purchase Schlage products that accommodate the standard Best® style interchangeable cores, in 6 or 7 pin.

### AL SERIES STANDARD DUTY COMMERCIAL LOCKSETS

For standard duty, commercial exterior and interior doors for medical, office, hotel/motel, public buildings, religious, multi-family, retail/storefront and government facilities. Also for heavy duty residential.

**The AL-Series keyed lever lock utilizes the Schlage original A-Series cylindrical chassis with stylish lever designs supported by heavy duty spring cages. This design provides strength and performance in the more abusive commercial Grade 2 applications. The AL-Series is available in a wide variety of keyed and non-keyed functions and in the most popular finishes. The AL-Series also features lever designs that are compatible with the complete family of Schlage ADA compliant commercial grade levers.**

**Certifications:** ANSI A156.2-2003, Series 4000 Grade 2.  
UL listed for all functions up to 3-hour doors.

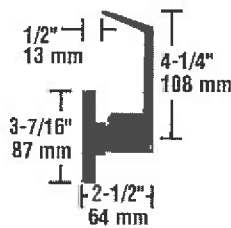

**Exposed Trim:** Wrought brass and bronze. Levers are pressure cast zinc, plated to match finish symbols.

**Keying:** 6 pin tumbler with two nickel silver keys per lock. Stock locks are keyed 5 pin. Other keying options available from factory include masterkeying, grandmasterkeying, construction keying and interchangeable core.

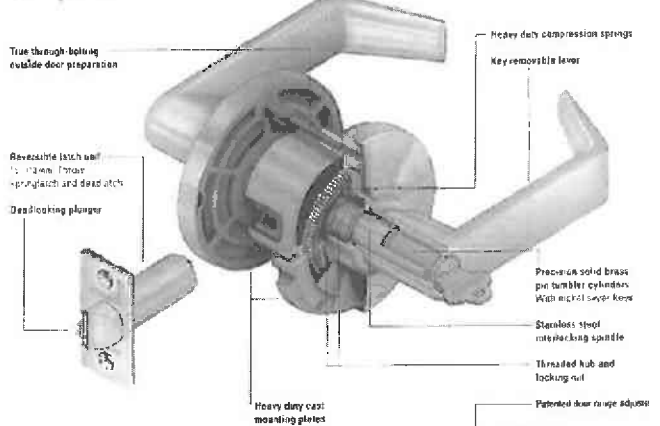

**Door Range:** 1-3/8" to 1-7/8" standard.

#### Performance Features

- Exceeds all ANSI A156.2-2003, Series 4000 Grade 2 strength and operational requirements including 400,000 cycle testing. U.L. Listed for 3-hour doors.
- True through-bolting of 6061 aluminum lock chassis creates and disengagement from latch.
- Stainless steel interlocking spindle design for added strength against excess force when lever is in locked position or latch has been fully retracted.
- Cold rolled steel machined threaded hubs and locking nuts prevent loosening of the lockset by bolting chassis to the door.
- Heavy duty cast mounting plate with specially tapered holes reduces loosening of through-bolting and lockset on the door. Large diameter of mounting plate and nut provides coverage for new ANSI hollow metal door egress.
- Heavy duty compression springs extend life of spring cage and provide smooth, fast return action of levers and minimize drag.
- Patented door range adjuster allows quick and easy adjustment of the AL-Series for 1 1/8" to 1 7/8" door to egress lock doors.
- Precision solid brass pin tumbler cylinders with nickel silver keys for less wear and longer cycle life. Available in all Schlage® keyways.
- Saturn, Jupiter and Neptune levers comply with ADA requirements and are non-handed.
- Key removable outside lever for quick rekeying and easy cylinder replacement.
- Interchangeable core. Privacy and Passage interchangeable core cylinders available.

# COBRA

BY SCHLAGE®

Cobra by Schlage is an architecturally designed programmable locking system. This attractive, battery-powered electronic cylindrical lockset is ideal for new construction or retrofit applications where aesthetics are important & program flexibility at the lock is critical.

With Cobra's programming flexibility, users can program up to 100 3-8 digit user codes right at the keypad. In addition, the lock features red and green LED indicators for visible access & programming acknowledgment. A concealed emergency override gives you additional flexibility to tie into existing SFIC keying systems.

Additional features include extended battery life, Vandgard™ clutching lever design, a variety of architectural finishes & 2 lever designs. Cobra by Schlage is an excellent choice for schools, hospitals, multi-family units, retail stores, & commercial & government facilities looking to upgrade their access control from mechanical locks or other manufacturers' lock.

- 100-code capacity, programmable at keypad
- 4 AA batteries provide over 80,000 cycles
- 626 Satin Chrome Finish/605 Polished Brass
- 17 style lever
- Accepts SFIC cylinder, dummy plug provided
- Shipped right-handed, field reversible
- 2-3/4" backset with 1/2" latchbolt
